Oasis in Space 8K

For over two decades, Oasis in Space has remained one of our most popular and evergreen productions. In 2022, the entire show was remastered with a gorgeous, live-performer score, brilliant new visual effects and an updated script that reflects current advances in space science. Once more, we are ready to take the audience on a rich and fascinating journey through our celestial neighborhood, as we look for one of organic life's key ingredients – liquid water.

Mars One Thousand One 8K

Space reporter Miles O'Brien guides you through the first human mission to Mars – a daring 1000-day mission to fly an international crew to the red planet and return them safely to Earth. Many challenges will have to be met in order for the crew to succeed and unlock the secrets of the new world!

Best Scientific Communication Award at the Beijing International Film Festival Science & Technology Section (2019)

Best Fulldome Cinematography Award at Reflections of the Universe International Fulldome Festival in Yaroslavl, Russia (2019)

Atlas of a Changing Earth 8K

This is the story of how a revolution in one of the most basic of all human enterprises – the making of maps – is coping with rising global temperatures. It builds on the success of two award-winning Earth science films distributed by Cosm Studios: Dynamic Earth: Exploring Earth's Climate Engine (2012) and Birth of Planet Earth (2019).

Our Story

We Are Storytellers, Curators, and Innovators

It is our mission to foster the art of fulldome filmmaking and the immersive creator ecosystem. We have gathered an interdisciplinary community of some of the most talented artists, filmmakers, technologists, and experience designers to push the boundaries of immersive storytelling and design.

We have created some of the world's most recognizable and highly acclaimed animated and live-action fulldome films. Under the Cosm Studios banner, we will continue to develop a variety of educational works for the science community while expanding to include broader immersive experiences.

Content Creation

We direct, produce, co-produce, and commission films for the science and education market. We are also pushing the boundaries of fulldome by building entirely new immersive experiences for our partners and audiences to enjoy. This will enable institutions to broaden their audience base and increase audience retention.

A Robust and Diverse Show Library

Cosm Studios proudly offers the industry's most comprehensive fulldome show library. All shows are in fulldome format with stereo and/or 5.1 surround sound and compatible with any manufacture's fulldome system.
